

Did you know that PTA is the largest volunteer child advocacy organization in the United States? And did you know that membership in PTA gives you discounts with many of our local business partners, as well as numerous discounts offered through the state and national PTA? If you have not yet done so, please consider purchasing a PTA membership for the 2016-17 academic year, and join us in our effort to help make the educational experience the best it can be for our children!
